- **ENGLISH** (C1 – certification)
- **FRENCH** (A2)

HOBBIES

- **Calisthenics** (body-weight training)
- **Interactive web applications**
- **Reading** (also audiobooks)

SUMMARY

With over four years of experience as a data analyst and risk software developer, I possess a comprehensive understanding of building data pipelines for risk metrics calculation, machine learning models, and database management. I have extensive experience leveraging tools such as R, Python, SQL, and advanced data analytics techniques to drive business insights.
